29. ALL WORK TO BE CONSTRUCTED PER THE TOWN OF BETHLEHEM TOWN STANDARDS.

TOWN OF BETHLEHEM STANDARD NOTES

1. "All utilities to be installed in accordance with Town Standard Details and Specifications. Prior to construction, the contractor shall obtain these two documents for use on the job."
2. "All elevations shown are on USGS elevation base."
3. "All grading to be 3:1 (horizontal:vertical) maximum slope. Graded lawn/yard areas shall have a minimum slope of 2%."
4. "Prior to any work in the Town right-of-way, the contractor shall obtain a highway work permit from the Town Highway Superintendent."
5. "Prior to any work in the County right-of-way, a highway work permit from the County of Albany Department of Public Works is required."
6. "Prior to any work in the State right-of-way, a highway work permit from the New York State Department of Transportation is required."
7. "Prior to any work on sanitary sewer and water, the contractor shall obtain the necessary permits from the Town Department of Public Works."
8. "Unless otherwise noted, the locations and footprint configurations of proposed dwellings, driveways and associated lot grading as shown on this plan are conceptual and are included for municipal review purposes. Actual building locations and configurations, and related site grading, may vary from what is shown. However, any substantial variation from what is shown on any lot, as determined by the Town Building Inspector, shall be subject to further review by the Town Department of Public Works (and possibly other Town entities) prior to the issuance of a Building Permit for that lot."
9. "Any lot that has a proposed house location or building envelope that is located on the downhill side of the Safe Set Back Line will need to have a site-specific soils report submitted to the Building Inspector before a building permit will be issued for that lot."
10. "All controlled fill shall be certified by a licensed soils engineer, that placement of the material was done in a manner suitable for the construction of the road and the installation of water main, storm sewers, and sanitary sewers. To this end, no fill shall be placed in areas identified on these plans as controlled fill areas until the certifying soils engineer has been consulted."
11. "For all lots that have areas designated as preserved Federal Wetlands as shown on the Plans, the Town has no control over and accepts no responsibility for future drainage problems that could occur in these areas. This pertains whether such problems are a result of leaving the areas as they presently exist, or a result of future lot owners filling in and around the areas without regard for local drainage patterns."
12. "For all lots having preserved Federal Wetlands, such wetlands will be shown on the plot plans submitted to the Town Building Department for a Building Permit. This wetland information can be taken directly from the plat or Federal Wetlands Map. Said plot plans shall note that further filling of wetlands may require authorization from Federal regulatory authorities."
13. The contractor shall call the U.F.P.O. (1-800 962-7962) two working days prior to any excavation to have underground utilities located in the field.
14. Street right-of-way monuments shall be installed following completion of home construction at points designated by the Town of Bethlehem.
15. No sump pump, roof drains, cellar drains, or footing drains shall be connected to the sanitary sewer system.
