

Landslide and Erosion Potential

Albany, N.Y.

LANDSLIDE AND EROSION POTENTIAL,
"lakebed deposits"

1. high (slopes $\geq 10\%$)
2. slight to moderate (slopes $< 10\%$)

OTHER AREAS

6. no special landslide or erosion problems, except along boundaries;
crosscheck on active area overlay

EROSION POTENTIAL

- sand deposits-
3. high by water; high by wind, if uncovered (slopes $\geq 10\%$)
 4. slight to moderate by water; high by wind, if uncovered (slopes $< 10\%$)
- hill deposits-
5. slight to moderate by water (all slopes)

SCALE 1:24000
